TIME FOR YOU THURSDAY

Finding financial assistance for caregivers and care recipients

If financial constraints have you spending a lot of time figuring out how to pay for medical care for yourself or a loved one, here's something worth spending a few minutes to check out.

The HealthWell Foundation, a non-profit charitable organization started in 2003, provides financial assistance to cover the cost of prescription drug coinsurance, co-payments and deductibles, health-insurance premiums, and other selected costs for patients who have some medical coverage but still have difficulty meeting their out-of-pocket expenses.

The HealthWell Foundation, which recently provided assistance to its 30,000th patient, and in March 2007 alone, allocated over \$7 million in new grant money to patients living with breast cancer, colon cancer, asthma, psoriasis, non-Hodgkin's lymphoma, rheumatoid arthritis, and many other conditions, considers individual financial, medical and insurance situations when determining assistance eligibility.
